FEATURES & BENEFITS

FEATURES & BENEFITS

PANEL TRACK SYSTEMS

- Sliding panel tracks offer flexibility, effective light and shade control and UV protection across large expanses of windows.
- Sliding panel tracks are available in two, three, four and five channel tracks.
- All panel tracks come with round valance in white or silver
- Sliding panel tracks are available in white or silver.
- Headrail can be purchased separately. Please refer to the "Track Only" section of the price guide.
- Standard sliding panel tracks are cord drawn. Optional baton draw or free flowing (drawn by manually pulling each panel separately) panel track systems are available upon request at no additional charge.

FABRIC PANELS

Fabrics are available in different colors and textures. Panels may be free floating and individually adjusted. Panels can be collected and follow a lead panel in sequence to open and close. Panels position behind one another. There is no light fissure between rail and panels. Panels will reach the end of the window frame.

- Panels do not hang perfectly flat; some fabrics may have a billowing or wavy appearance at the time of installation which may correct itself over time.
- Fabric panels can be purchased separately. Please refer to the "Panels Only" section of the price guide.

TOP TREATMENTS

The headrail can be installed with wall brackets or ceiling brackets for a clean contemporary look. To conceal the panel track, a matching valance is included for IB or OB installations. Valances are available in silver or white.

BOTTOM HEMBAR

Standard panel tracks include a heat sealed bottom hembar with sealed ends.

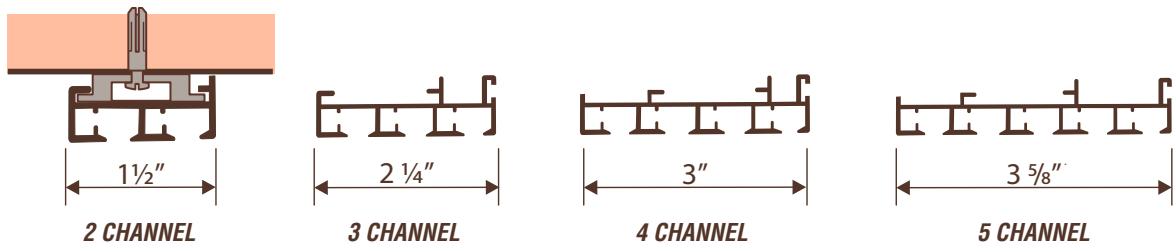

FABRIC SPECIFICATIONS

- Please refer to the fabric list for available fabric styles and openness factors.
- Please refer to the sample cards in the Automated Motorized Shades Roller Shade book for color selection.
- Please refer to the price charts and options section to calculate the cost of the shade.

Note: Some fabric may twist slightly. This is inherent in the fabric and may be noticeable in narrow panels.

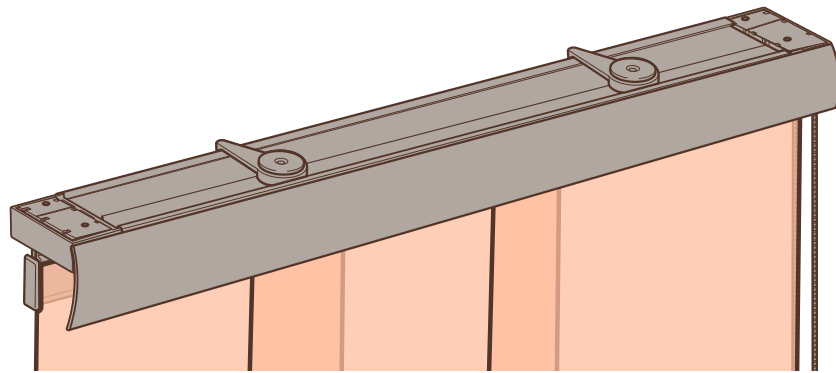

REMOTES & CONTROLS

TRACK DEPTH CHART

Note: Panel tracks are available in a variety of track configurations. The track specifications are shown above.

PANEL TRACK SPECIFICATIONS

Configuration		Mounting Depth Required	Tracks Required	Track Configuration
One way	Split Draw			
2 Panels	2 Panels	1 1/2" wide	1 Track	2 Channel Track
3 Panels	4 Panels	2 1/4" wide	1 Track	3 Channel Track
4 Panels	6 Panels	3" wide	1 Track	4 Channel Track
5 Panels	8 Panels	3 5/8" wide	1 Track	5 Channel Track
6 Panels	10 Panels	4 5/8" wide	2 Track	(2) 3 Channel Tracks
7 Panels	12 Panels	5 3/8" Wide	2 Track	(1) 3 Channel Track + (1) 4 Channel Track
8 Panels	14 Panels	6 1/8" wide	2 Track	(2) 4 Channel Tracks
9 Panels	16 Panels	6 3/4" wide	2 Track	(1) 4 Channel Track + (1) 5 Channel Track
10 Panels	18 Panels	7 3/8" wide	2 Track	5 Channel Tracks

FABRICATION DEDUCTIONS

Inside Mount (IB): Headrail Width-Factory deducts 1/4"
 Panel Height Allowance-Factory deducts 3/8"
 Outside Mount (OB): Net measurements

MOUNTING OPTIONS

- Wall Bracket
- Ceiling Bracket

Wide tracks may be spliced for easier transporting and/or shipping

Minimum Panel Width: 12"
 Maximum Panel Width: 48"

Sliding panel tracks are available in white or silver. Please specify cord draw or baton draw.

CALCULATING THE COST OF A CENTER DRAWN PANEL TRACK

STEP 1

On the Track Configuration chart above, find the desired number of panels and locate the track dimensions and total tracks required to fabricate this size track. Please note that a combination of track dimensions may be required to operate some of the track configurations; which is specified above on the chart.

STEP 2

To price your track, use the information from the track configuration chart and locate the appropriate width on the "Track Only" Grid. If your track uses one track, the price on the grid is the total retail price for your track. If multiple tracks are required, add the cost of both tracks together for your total.

Note: Please contact customer service for additional track configurations. Panel tracks are available in other configurations.

**Wide Track may be spliced for easier transporting and/or shipping*

CHILD SAFETY & WARRANTY

CHILD SAFETY

Every product we send out meets or exceeds the latest safety standards as set forth by the Consumer Product Safety Council and the Window Covering Manufacturers Association. For enhanced safety, Automated Motorized Shades offers cordless and motorized window treatments.

REMEMBER THESE SAFETY RULES...

- For children's bedrooms only install window coverings that are cordless.
- Any window coverings in your home that were made before 2001, should be replaced with today's newer, safer models.
- Do not place furniture near windows that have window coverings with cords.
- Keep all cords out of reach from small children. Do this by securing tasseled pull cords out of reach with a cord cleat, and anchoring continuous-loop cords to the wall with safety devices.
- Always be sure to lock and firmly secure cords in position.
- Products such as Roman or Woven Wood Shades that have accessible back cords, should not be installed within reach of children.

All products come with safety labels attached. This is to help raise awareness of the potential safety risks associated with the products you purchase. If you have any concerns, please do not hesitate to contact us directly. You may also directly contact any of the associations that create the safety standards with any questions or concerns. Child safety is our top priority!

WARRANTY

Automated Motorized Shades guarantees all products manufactured in our facility to be free from defects due to faulty workmanship and/or materials. We are so confident about our quality and dependability that we back our manual shades with a limited lifetime warranty, our motors with a 5 year limited warranty, and our custom printed shades with a 3 year warranty against fading. All warranties are effective from the original invoice date of the product.

This guarantee does not apply to damage to exterior shades caused by high winds and/or extreme weather conditions. Any roller shade or parts which fail due to abuse, accident, theft, alterations, improper

use or installation, or gradual color fading, are also excluded from this warranty.

Automated Motorized Shades reserves the right to inspect products and will replace or repair any product found to be defective as a result of faulty workmanship or materials. Shipping charges, trip charges and labor costs for measuring and installation and/or removal of old or current products are excluded. This warranty is available to

the original owner/purchaser and is non-transferable. Automated Motorized Shades' warranty is designed to ensure a thoroughly satisfying experience with your window treatment product. Certain restrictions may apply.
