## **OVERVIEW**

### **DESCRIPTION**

An easy to use chain operated clutch control effortlessly slides the opaque and translucent woven stripes past each other. The front layer moves independently of the back allowing the stripes to glide between each other creating an open and closed effect, allowing for limitless light control. The same operation is used to raise or lower the window blind to any height in the window with ease, in the same way a classic roller shade would. Motorization options are also available to compliment the entire Parallel<sup>TM</sup> shade collection. The exceptional Parallel<sup>TM</sup> shade collection features sheer metallics, delicate subtle tones and natural wood weave effects, the perfect choice for any room in the home.

**OPEN** 

**CLOSED** 

## **OPTIONS**

### **CASSETTES**

The contemporary style of the Parallel™ Shades is on full display with a Closed Cassette system. Both options conceal the operating mechanism of the shade neatly and stylishly. The new 70mm Cassette adds the flexibility to have the shade roll off either the front or back of the cassette, which allows for more efficient mounting options. All are available with or without a matching fabric insert. The entire cassette line features European influenced designs and colors, including white, black, ivory, brushed aluminum, antique bronze and chrome finishes, all of which are listed on the next page. The possibilities are endless and the colors can be mixed or matched, the choice is yours!

CLOSED CASSETTE
WITH FABRIC INSERT

70 MM CASSETTE

### **BOTTOM RAIL**

The Bottom Rail is engineered to self centralize, even if the bar is knocked out of place it will correct itself automatically, preventing any damage to your shade. The enclosed design has an inner rod that prevents light from creeping through in any position to reduce light strike. The bottom rail features the same colors as all head rail colors, which include white, black, ivory, brushed aluminum, antique bronze and chrome finishes, so that you can mix or match your color scheme.

**BOTTOM RAIL**

### **CHILD SAFETY & WARRANTY**

### **CHILD SAFETY**

Every product we send out meets or exceeds the latest safety standards as set forth by the Consumer Product Safety Council and the Window Covering Manufacturers Association. For enhanced safety, Automated Motorized Shades offers cordless and motorized window treatments.

#### REMEMBER THESE SAFETY RULES...

- For children's bedrooms only install window coverings that are cordless.
- Any window coverings in your home that were made before 2001, should be replaced with today's newer, safer models.
- Do not place furniture near windows that have window coverings with cords.
- Keep all cords out of reach from small children. Do this by securing tasseled pull cords out of reach with a cord cleat, and anchoring continuous-loop cords to the wall with safety devices.
- Always be sure to lock and firmly secure cords in position.
- Products such as Roman or Woven Wood Shades that have accessible back cords, should not be installed within reach of children.

**Automated** 

WARRANTY

Motorized

Shades

All products come with safety labels attached. This is to help raise awareness of the potential safety risks associated with the products you purchase. If you have any concerns, please do not hesitate to contact us directly. You may also directly contact any of the associations that create the safety standards with any questions or concerns. Child safety is our top priority!

#### WARRANTY

Automated Motorized Shades guarantees all products manufactured in our facility to be free from defects due to faulty workmanship and/or materials. We are so confident about our quality and dependability that we back our manual shades with a limited lifetime warranty, our motors with a 5 year limited warranty, and our custom printed shades with a 3 year warranty against fading. All warranties are effective from the original invoice

date of the product.

This guarantee does not apply to
damage to exterior shades caused by high winds and/or
extreme weather conditions. Any roller shade or parts which
fail due to abuse, accident, theft, alterations, improper use or

installation, or gradual color fading, are also excluded from this warranty.

Automated Motorized Shades reserves the right to inspect products and will replace or repair any product found to be defective as a result of faulty workmanship or materials.

> Shipping charges, trip charges and labor costs for measuring and installation and/or removal of old or current products are excluded. This

warranty is available to the original owner/purchaser and is non-transferable. Automated Motorized Shades' warranty is designed to ensure a thoroughly satisfying experience with your window treatment product. Certain restrictions may apply.
